

Arched Flush Pull - FP253

ARCHED

FP253

This classical arched design provides an elegant foundation for traditional hardware. The refined curves are highlighted by beveled edges.

OPTIONS

The flush as seen above is the 2 1/2" x 11" shown in silicon bronze, light patina. The hardware is designed to operate interior sliding doors, such as pocket doors and doors that can be paired with a lift and slide function. Available in a wide variety of patina options. Arched flush pulls are available in various sizes 9", 11" & 12 1/4" with varying depths and widths. Visit www.rockymountainhardware.com to view more options.
